# Normandy Insurance Company Announces Expansion of Coverage to Texas

Deerfield Beach, FL (January 16, 2019) – Florida-based workers' compensation carrier Normandy Insurance Company is now offering workers' compensation insurance to small, mid-size, and large businesses in Texas. This marks the fourth major expansion by the multi-state insurer in the past two years. Normandy now offers workers' compensation insurance in Florida, Georgia, Virginia, Pennsylvania, and Texas.

"Normandy's plan has always been to grow methodically throughout the United States, with a commitment to our company's promise that all customers will receive exceptional service, including throughout the claims process, which is imperative when providing workers' compensation insurance." says Normandy's Senior Vice President & Chief Underwriting Officer Jayson Buechler. "We anticipate continued expansion into more states in order to offer coverage in as many locations as possible."

With talented staff and a strong financial footing—Normandy has underwritten to a profit for many years—the company is well-positioned to provide innovative and cost-effective workers' compensation coverage in multiple states. In 2017, Normandy Insurance Company was assigned a Demotech Financial Stability Rating® of A (Exceptional) in recognition of the company's strategic growth and solid business operations.

**ABOUT NORMANDY INSURANCE COMPANY**
